

Combatting COVID-19 Planning & Response Support

With over 35 years of experience in emergency management, homeland security, disaster recovery, public health, and national security, IEM has helped government agencies at all levels and private industry achieve their missions. We are currently helping clients with additional emergency operations center support capability, pandemic planning and response operations. IEM is here to support you.

As a global emergency management and security consulting firm that specializes in developing innovative strategies, technologies, and solutions, IEM has the capacity to support you during this evolving crisis. We have helped over 300 government and private industry customers improve protection and security for their communities through training exercises, continuation of operations/continuity of government planning, and on-site operational support of Emergency Operations Centers (EOCs).

IEM's team works every day to enable evidence-based, data-driven planning for federal, state, local, and territorial governments and the private sector. **We help public health agencies, healthcare organizations, and emergency management agencies** overcome the challenges they face by collaborating with them to understand the needs of their communities through services such as **pandemic operations planning and alternative care site surveying**. IEM's public health and pandemic data and modeling expertise is world class. Our modeling following the 2001 anthrax attacks and other disease outbreaks led to two Presidential policies – one from President Bush and another from President Obama.

IEM is currently supporting senior level pandemic planning and EOC operations around the nation. **IEM stands ready to support your operations.**

Service Offerings

IEM's cadre includes emergency managers, medical preparedness and response planners, epidemiologists, disease modelers, former hospital emergency managers, and public health experts. During the current Coronavirus crisis, IEM is assisting our clients with COVID-19 response, planning, logistics, exercises, and modeling.

As an example, IEM can provide the following emergency management and public health offerings:

Response Support

- Emergency Operations Center (EOC) Support Staff
- Facilitate the transporting, handling, support, and tracking of cruise ship and airline passengers requiring quarantine.
- Base camp support, including providing portable ADA accessible facilities
- COVID-19 modeling support
- After Actions Development and Recommendations
- Logistics Management

Planning

- Development of pandemic plans and planning guides
- Resumption of services

IEM Air™ Aviation and Airport Support

- Air Evacuation Planning
- Airport Emergency Response Assessment and Planning
- On-call Emergency Services and Consultation

Continuity of Operations/Continuity of Government

- Task lists for emergency management and business continuity
- Business continuity and virtual public service design

Financial Management

- Industry best practices for federal and state reimbursement processes for emergency protective measures

Training and Exercises

- Senior leadership COVID-19 tabletop and virtual exercises
- Post-event training plans

IEM professionals are experienced in helping **emergency management** and **health care systems** ensure **organizational resiliency** and become more effective **service providers during emergencies**. Our services range from supporting **staffing and planning** in **emergency operations centers** or **transporting and distributing** the Strategic National Stockpile.

IEM offers competitive pricing and diverse contract vehicles to support your needs. During the rapidly evolving COVID-19 pandemic, **IEM continues to build safe, secure and resilient communities.**

IEM'S EASILY ACCESSIBLE CONTRACT VEHICLES
