

Law Enforcement & Homeland Security Services

IEM is the world's largest woman-owned crisis management firm and brings nearly four decades of expertise and innovation to solve the most pressing challenges for federal, state, local, and tribal law enforcement agencies.

For more than 37 years, IEM remains committed to building a safe, secure, and resilient world. IEM accomplishes this mission by working closely with government agencies and private sector organizations around the world to improve preparedness and protection, response, recovery, and mitigation to strengthen homeland security and defense, public health, cybersecurity, and critical infrastructure. We create science-based tools, technology and strategies that help our customers achieve measurable results—saving lives, reducing costs, increasing efficiencies, and facilitating evidence-based decision making.

Our digital services offerings are uniquely suited to the law enforcement and homeland security mission spaces. Resilient communities are prepared communities. IEM's team of subject matter experts – including former law enforcement – provide insights and the necessary capabilities to partner directly with departments of all sizes to innovate solutions that identify threats, manage risk, and leverage data to provide accurate forecasts for senior leaders, and deliver span-of-control for any operating environment.

We specialize in combining deep subject matter expertise with game-changing technologies to craft tailored solutions. Our clients appreciate the perspective we bring as a team of seasoned practitioners and experts, along with the technical savvy to deliver tools, systems and processes that enable practitioners. We have built a reputation for developing first of its kind solutions or adapting the tried-and-true to rapidly changing conditions.

Our team of **nationally recognized leaders** deliver innovative and outcome-based solutions that **strengthen communities, secure our homeland, and save lives.** Understanding the complexities of today's challenges—whether natural or manmade—is top of mind for our team.

Our Experts

The expansive IEM team includes law enforcement, emergency management, homeland security, disaster recovery, public health, and national security and information technology professionals, former executives and senior leaders from FEMA, HUD, DOD, as well as senior state and local officials from across the country.
