

IEM's mission is to build a **safe, secure, and resilient world.**

IEM knows emergency and crisis management. With over 37 years of experience managing and responding to unprecedented events, IEM has the expertise, innovative strategies, and tools to overcome disruptions and help communities build back stronger. Whether a disaster, pandemic, homeland security threat, or community risk, IEM ensures rapid response and recovery to increase resilience and mitigate the impact of future events.

IEM is the largest women- and minority-owned firm of its kind. Since 1985, we have evolved to adapt to the industry's changing needs. We have helped over 300 government and private sector clients. Much of our business consists of repeat customers who trust us to provide them with the tools needed to support their decision making that ensures their communities are protected.

As an outcome driven firm, we provide practical, cost-effective results that work. These solutions help our clients reduce costs, increase efficiencies, improve decision making and outcomes, and most importantly **save lives.**

IEM provides support including:

- Comprehensive program management;
- Grants, benefits, and digital citizen administration and services;
- Unique planning strategies;
- Scientific modeling and simulation; and
- Decision support technologies.

We strive to fulfill our mission by:

- Listening to our customers' need to **respond quickly and effectively;**
- Maintaining the **highest ethical standards; and**
- Developing **collaborative, trusting partnerships** with our clients, adopting their goals as our own.

IEM has been at the forefront of some of the nation's greatest challenges – helping our partners **tackle COVID-19, H1N1 and anthrax attacks; rebuild more resiliently and equitably following disasters; destroy decades of chemical weapons while keeping communities safe; and much more.**

Our Experts

The expansive IEM team includes emergency management, homeland security, disaster recovery, national security, and digital service professionals, former executives, and senior leaders from FEMA, DHS, HUD, DoD, as well as senior state and local officials from across the country.

Team IEM | Our Services

No matter the mission, our team of nationally recognized subject matter experts are prepared to deliver innovative strategies and turnkey solutions that matter.

Digital Citizen Services

IEM oversees the delivery of economic and other assistance to survivors of disasters and emergencies. Our experts help navigate federal initiatives including the Infrastructure and Investment Jobs Act (IIJA), the Homeowner Assistance Fund, and disaster recovery programs such as the Community Development Block Grant – Disaster Recovery (CDBG-DR).

Digital Services

IEM develops information technology (IT) solutions that address today's challenges while anticipating future needs. From cutting-edge modeling and simulation to advanced software engineering, our Digital Services team provides measurable results for optimum outcomes.

Disaster Recovery

IEM helps with each step of the recovery process to support short-term and long-term revitalization efforts. Our services include managing and maximizing federal grant programs, coordinating housing and individual recovery, and delivering automated grant solutions.

Emergency Management

IEM is the go-to firm to assist clients with improving preparedness, response, recovery, and mitigation. Our leading team of experts apply real-world experience to save lives and protect property.

Homeland Security

IEM combines our expertise and technology to gain insight on the best ways to prepare for, prevent, and respond to domestic threats. We help clients adapt to the constantly changing landscape with resources such as after-action reports, risk assessments, training, and exercises, and more.

National Security

IEM uses science and technology to produce defense solutions for advanced security and improved military performance. We give leaders the tools to make decisions on assessing threats to populations and critical infrastructure, mitigating risks, and addressing terrorism, and more.

Public Health

Our multidisciplinary team of experts is nationally recognized for supporting public health policy, planning, modeling, and response. We spearhead public health projects including testing program management, vaccine distribution, and other logistics.

CONTRACT VEHICLES

IEM manages a broad portfolio of government contract vehicles to provide our clients with fast, flexible channels to access the full range of IEM services.
