

IEM's Digital Solutions for Law Enforcement

IEM is the world's largest woman and minority-owned crisis management firm bringing nearly four decades of innovation to solve the most pressing challenges for law enforcement agencies.

IEM's mission is to build a safe, secure, and resilient world. IEM partners with government agencies and private sector organizations around the world to improve preparedness, response, recovery, and mitigation to strengthen homeland security and defense, public health, cybersecurity, and critical infrastructure. We create science-based tools, technology and strategies that help our customers achieve measurable results—saving lives, reducing costs, increasing efficiencies, and facilitating evidence-based decision making.

IEM's combination of experience and digital services empower our partners to protect law enforcement personnel and their communities in new and innovative ways. Our team has supported agencies in all 50 states and hundreds of localities and urban areas, delivering consulting services that modernize IT systems, deliver valuable data, and optimize workforces. IEM also brings extensive experience from the federal law enforcement community, including former senior executives.

The IEM Team can design and deliver solutions for every level of government and operating environment, including:

- Innovating computer vision solutions and sensor networks to **enhance officer safety** and **reduce officer and analyst workloads** for police departments.
- Automating workflows for law enforcement program managers to enhance **operational efficiency** by **streamlining evidence critical administrative and investigative processes.**
- Mapping collaboration networks for intelligence fusion centers to **optimize collaboration** and **stakeholder engagement.**
- **Developing** crime and threat-specific **programs** for communities with supporting software tools.

IEM solutions are **cost-effective** and **scalable** at the speed of the mission.
