

With four decades of experience managing and responding to unprecedented events, IEM has the expertise, **innovative strategies**, and tools to overcome disruptions and help communities build back stronger. **IEM's GrantWise™ supports the efficient and effective business process and workflow management of grant administration and processing at each step – from initialization to closeout.**

In grants management, it's critical that file processing is **quick, accurate, and adaptable to accommodate policy changes**. It is imperative that a grants management system is **safe and secure** yet **flexible and customizable** with a fast paced development capability.

GrantWise™, a low-code solution, checks all the boxes for grants management processing needs including:

- A wide array of security certifications,
- Artificial Intelligence capabilities including Intelligent Document Processing,
- Automated workflows,
- Document Management, and
- Dynamic Reporting Dashboards.

Our Experts

The expansive IEM team includes emergency management, homeland security, disaster recovery, national security, and digital service professionals, former executives, and senior leaders from FEMA, DHS, HUD, DoD, as well as senior state and local officials from across the country.

GrantWise™ Features

Collaborative Work Environment

- Easy, direct access for applicants, contractors, grantees and subgrantees
- Automated workflows
- Calendar for appointment scheduling and reminders
- Task assignments and reminders
- Inbox for incoming and outgoing messages and tasks that are stored within the system

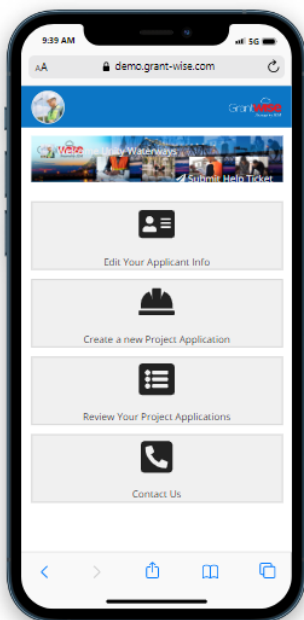

Grants Administration and Management

- Centralized repository, managing the entire grant lifecycle
- Real-time reporting dashboards with user ability to generate reports
- Document repository with automated document versioning
- System integration abilities
- Electronic signature capability
- Stored audit trails
- Processes payments
- Tracks budgets

Monitor & Track Grantee Project from Start to Finish

- Manage the full application process
- Logs project documentation and collects reports and needed documentation
- Monitors milestones and project scope
- Manage the closeout process

GrantWise™ offers mobile-friendly functionality.

IEM's History in Grant Automation

IEM started working with grants automation in 1999, developing and maintaining a client-server system that supported the Federal Emergency Management Agency's (FEMA) Cooperative Agreement (CA) grants called CATools.

IEM subsequently evolved this capability to a fully automated, web-based application called WebCA. Grantees for the CA programs included ten states, a tribe, 40 counties, and several municipalities.

In 2016, IEM moved to a cloud-based Business Process Management (BPM) platform to develop grant management applications.

CONTRACT VEHICLES

IEM manages a broad portfolio of government contract vehicles to provide our clients with fast, flexible channels to access the full range of IEM services.
